

**The Highland Railway Society**

Modelling products for the pre-group era, suitable for use in 2mm scale (1:152). List of known products at June 2012.

Item	Man'r ref	Comments	Manufacturer
<b>Locomotives and Locomotive Components</b>			
0-6-0 Tender Locomotive "Barney"		Scratch Aid" Locomotive Kits Etched on 0.010" nickel silver. Body and Chassis Etching only. No Castings	Worsley Works
0-4-4 Passenger Tank Locomotive		Scratch Aid" Locomotive Kits Etched on 0.010" nickel silver. Body and Chassis Etching only. No Castings	Worsley Works
<b>Carriages and Carriage Components</b>			
Dia 60 full 3 <sup>rd</sup> corridor. Pickering 50ft. 1909/1912	HR2-C1	Etchings only - body and underframe – for suitable Fox bogies – see below	Lochgorm Kits
Dia 29 Full lavatory 3 <sup>rd</sup> non corridor 48ft	HR2-C2	Etchings only - body and underframe – for suitable Fox bogies – see below	Lochgorm Kits
Dia 8 Directors Saloon	BCK1111	Etchings only - body and underframe – for suitable Fox bogies – see below	Mousa Models (previously Bill Bedford)
Dia 38 Bogie Brake Van	BCK1110	Called Luggage van on Mousa list. Etchings only - body and underframe – for suitable Fox bogies – see below	Mousa Models (previously Bill Bedford)
50' underframes	BUK1110	Etchings only – no bogies – for suitable Fox bogies – see below	Mousa Models (previously Bill Bedford)
Fox Pattern 8'0" bogies	2-180	Etched – no castings required	2mm Scale Association
<b>Wagons and Wagon Components</b>			
Dia 25- 6 wheel 11 ton brake van (rebuilt)	HR2-W1	Etchings only - body and underframe	Lochgorm Kits
Grease axlebox	2-471	Whitemetal	2mm Scale Association
Wagon – white lettering	MMT580	Waterslide transfers. Available to HRS members from N Gauge Society by quoting HRS membership number.	N Gauge Society
Non Passenger Coaching Stock – yellow lettering	MMT581	Waterslide transfers. Available to HRS members from N Gauge Society by quoting HRS membership number.	N Gauge Society
Wagon – Illiteracy symbols	HR200	Waterslide transfers	Highland Railway Society
<b>Signalling</b>			
Signal arms and spectacles (MacKenzie & Holland)	SN3	Etchings only	Model Signal Engineering
Stevens "flap" ground signal	tba	Etching – can be made to work	2mm Scale Association

Item	Man'r ref	Comments	Manufacturer
<b>Lineside Structures</b>			
Footbridge	HR2-L1	Etchings only (columns formed by tube – not supplied)	Lochgorm Kits
Coal merchant's store		Plastic kit based on Nairn	Ratio
Rail built buffer stop	1-078	Etched kit	2mm Scale Association
<b>Paints</b>			
L.B.S.C.R. Stroudley 'Improved Engine Green'	P476		Precision Paints
L.B.S.C.R. Stroudley Dark Olive	P477		Precision Paints
L.B.S.C.R. Stroudley Valance & Frames Claret	P480		Precision Paints
L.B.S.C.R. Stroudley Cab Interior Tan	P481		Precision Paints
Highland Rly. Locomotive Mid Green (1875)	P725		Precision Paints
Highland Rly. Locomotive Light Green (1875 - 1902)	P726		Precision Paints
Highland Rly. Dark Green (1885 - 1912)	P727		Precision Paints
Highland Rly. Dark Green (1912 - 1922)	P728		Precision Paints
Buffer Beam Red	P993		Precision Paints

**Other relevant products**

Model Signal Engineering

MSE produce a range of 2mm non-HR specialised accessories which will also be suitable when constructing signals e.g. ladders balance weights etc.

#### The 2mm Scale Association

The 2mm Scale Association produce a wide range of components for use in 2mm finescale. These include wheels ventilators buffers etc. to complete locomotive, carriages and wagons noted above. The range includes a "generic" 9 foot wheelbase wagon chassis which has a variety of brakegear, suiting a large number of HR wagons.
